Education

2022   BE - E&TC Engineering
International Institute of Information Technology (I2IT), Pune.
CGPA: 8.71 (76.36%)

2018   12th HSC
Dayanand Science College, Latur
Percentage: 70%

2016   10th CBSE
Podar International School, Latur
Percentage: 82.4%

Additional Skills

- Strong analytical and problem-solving skills with attention to detail.
- Excellent communication and teamwork abilities.
- Flexible and quick learner, eager to adapt to new technologies and tools.

Professional Summary

Cloud and Infra Engineer with 2+ year of hands-on experience in managing and supporting middleware technologies, specializing in TIBCO and Kafka administration. Proficient in deploying, configuring, and maintaining middleware environments to enable seamless application integration and messaging solutions. Skilled in troubleshooting, performance tuning, and implementing high-availability configurations. Adept at collaborating with cross-functional teams to deliver robust, scalable, and secure enterprise solutions

Technical Skills

- **Middleware Tools:** TIBCO (All Products), Kafka, WebSphere Application Server, IBM MQ
- **Messaging Systems:** Kafka, TIBCO EMS (Queues, Topics, Bridges)
- **Operating Systems:** Linux, Windows Server
- **Scripting:** Shell scripting (basic automation tasks), Python, Ansible
- **Development:** CPP, Java, Web Development,
- **Database:** Mongo DB, SQL
- **Monitoring Tools:** Kafka Manager, AppDynamics
- **Cloud: AWS, Azure**

Professional Experience

Senior Engineer – Cloud and Infra Management – LTIMindtree (2022 - Current)
TIBCO - 2+ years

- Managed and configured TIBCO EMS, BusinessWorks, and Administrator for seamless application integrations and optimal performance.
- Deployed, monitored, and maintained enterprise applications in TIBCO environments, ensuring system reliability and efficiency.
- Performed regular health checks, log analysis, and troubleshooting to resolve middleware and messaging issues.
- Managed TIBCO EMS queues, topics, and bridges to facilitate efficient communication between distributed applications.
- Conducted version upgrades, patch installations, and applied security configurations to maintain a compliant middleware environment.
- Automated routine administrative tasks using shell scripts, reducing manual errors and improving operational efficiency.
- Collaborated with development teams to identify and resolve application performance issues related to middleware configurations.
- Prepared and maintained detailed documentation of middleware configurations and operational procedures.

KAFKA - Beginner

- Assisted in setting up and configuring Kafka clusters, including brokers, ZooKeeper, and topics.
- Monitored Kafka cluster health using tools like Kafka Manager and Grafana to ensure high availability and performance.
- Managed Kafka topics, partitions, and consumer groups for efficient data streaming processes.
- Performed basic troubleshooting of Kafka brokers and resolved connectivity issues.

Certifications

- Microsoft Azure – AZ 900 Certified
- Learn Apache Kafka for Beginners v3 - Udemy
- Diploma In Web-Development (Shaw Academy)
- MSCIT (MKCL)
