# AJINKYA GUDE

## Contact

**Address:**
Vasu-Dev Nandanvan Colony Kavha Road, Latur, MH (413512)

**Phone:**
+91 – 758820 9898

**Email:**
ajinkyagude@gmail.com

## Languages

English - Proficient

Marathi - Native

Hindi - Native

## Education

**2022 BE - E&TC Engineering**
International Institute of Information Technology (I2IT), Pune.
CGPA: 8.71 (76.36%)

**2018 12th HSC**
Dayanand Science College, Latur
Percentage: 70%

**2016 10th CBSE**
Podar International School, Latur
Percentage: 82.4%

## Additional Skills

- Strong analytical and problem-solving skills with attention to detail.
- Excellent communication and teamwork abilities.
- Flexible and quick learner, eager to adapt to new technologies and tools.

## Professional Summary

DevOps Engineer with 3+ years of experience in cloud infrastructure management, automation, and deployment pipelines. Managing AWS services (EC2, IAM, ELB, S3, CloudWatch), Ansible, Terraform, and CI/CD tools (Jenkins, Maven) to automate and optimize infrastructure provisioning, application deployment, and system monitoring. Strong background in middleware and messaging technologies (TIBCO, Kafka, MQ), with proven skills in scripting (Shell, Python) to streamline large-scale operations.

## Technical Skills

**- Cloud Platforms: AWS (EC2, IAM, ELB, CloudWatch, EFS, S3), Azure**
**- Configuration & Automation: Ansible, Terraform, Shell Scripting, Bash, Python**
**- CI/CD & Build Tools: Jenkins, Maven, Ant**
**- Development: C++, Java, Web Development**
**- Databases: MongoDB, SQL**
**- Middleware & Messaging: Kafka, IBM MQ, WebSphere Application Server, TIBCO**
**- Operating Systems: Linux (Administration, Automation), Windows Server**
**- Monitoring & Management: Kafka Manager, AppDynamics**
**- Version Control: Git, Bitbucket**

## Professional Experience

### Senior Engineer – Cloud and Infra Management – LTIMindtree (2022 - Current)

**TIBCO - 3+ years**

- Automated day-to-day and large-scale infrastructure and application management tasks using Ansible, significantly reducing manual efforts, errors, and improving consistency across environments.
- Designed and implemented CI/CD pipelines with Jenkins and Ansible for end-to-end automated deployments of enterprise middleware and microservices applications.
- Regularly collaborated with development and operations teams to optimize build, release, and deployment workflows, achieving faster and more reliable delivery cycles.
- Assisted in the end-to-end migration of physical infrastructure to Amazon EC2, including server assessment, provisioning, application configuration, and validation to ensure a seamless and scalable transition to AWS Cloud.
- Configured networking, security groups, and EC2 resources in accordance with best practices for high availability, reliability, and secure operations on AWS
- Managed and configured TIBCO EMS, BusinessWorks, and Administrator for seamless application integrations and optimal performance.
- Deployed, monitored, and maintained enterprise applications in TIBCO environments, ensuring system reliability and efficiency.
- Performed regular health checks, log analysis, and troubleshooting to resolve middleware and messaging issues.
- Managed TIBCO EMS queues, topics, and bridges to facilitate efficient communication between distributed applications.
- Conducted version upgrades, patch installations, and applied security configurations to maintain a compliant middleware environment.

**KAFKA - Beginner**

- Assisted in setting up and configuring Kafka clusters, including brokers, ZooKeeper, and topics.
- Monitored Kafka cluster health using tools like Kafka Manager and Grafana to ensure high availability and performance.
- Managed Kafka topics, partitions, and consumer groups for efficient data streaming processes.
- Performed basic troubleshooting of Kafka brokers and resolved connectivity issues.

## Certifications

- Microsoft Azure – AZ 900 Certified
- AWS Cloud Practitioner Certified
- Learn Apache Kafka for Beginners v3 - Udemy
- MSCIT (MKCL)
